FIBREEN ECONOMY (208) SK10 AND FORTIFIBER FLASHING (208110)

- Description:** SK-10 or 208 is an economical, efficient asphalt Laminated, reinforced paper.
- Federal Specification:** Fully complies with Federal Specification UU-B-790A, Type 1, Grades A, B and C, Style 4.
- Construction:** Two Layers of natural kraft, light reinforcing And laminated with asphalt.
- Physical Properties:**
- Tensile (dry): 60 Lbs. Machine Direction (ASTM D 828)
 - Water Resistance: 24 Hours (ASTM D 779)
 - Water Vapor Permeability: 0.25 (ASTM E-96 Proc. A)
- Testing:** As Specified above.
- Warehouse:** Stocked in Attleboro, MA, Fernley, NV and Los Angeles, CA
